EBERT DECLARES **GERMANY READY** FOR DISARMAMENT

New President of Germany Gives Interview to Correspondents.

COMMISSION AT WORK

Germany to Have Defense Army Only—Raised By Conscription.

By Associated Press Leased Wire Weimer, Germany, Feb. 14.-Cont Von Bernstorff will not go to the peace conference as a German delegate; Germany plans, for the time being at least, a people's army based on general conscription; Germany will announce in a few days her intention to carry out a complete disarmament and demobilization and a commission made up of from the Center, Democrat and socialist parties is now discussing the details, of the new government program.

These points were made by Friederich Ebert, the new President of Germany, in an informal talk with foreign newspaper men today. They answered questions about American and British correspondence, which were asked after they had read a general statement emphazising the German's intention to re-habilitate them-

Seating himself at a large table, after shaking hands with a score of correspondents present, President Ebert read the statement and then signified that he was ready to answer questions

The question of disarmament was irst raised, since it has occupied so large a place in the discussions at the peace conference in Paris. President Ebert astonished his hearers sion is already at work on the prob-He said that Germany in the future is going to have only an army of defense, raised by general conscription.

Glass Asks More Power. Secretary Glass today told the house ways and means committee that it was apparent "something must be done to make the bonds or notes of the Victory Liberty Ioan more attractive than their predecessors" and asked that congress give him authority to fix interest rates and determine exemptions from taxation according to financial condi tions existing when the loan is float ed in April.

The head of the nation's financia system also urged that authority be given the War Finance corporation to make advances to exporters not to exceed \$1,000,000,000 and that the purposes for which the treasury may make loans to foreign governments be broadened.

Mr. Glass said both provisions were necessary to restoration of the country's foreign trade and would be mutually helpful to this government and the allies.

McADOO IN THE MOVIES.

So Mr. McAdoo has joined the procession and is going into the movies! Not that the former many-jobbed secretary of the treasury means to be an actor, or even a manager; but he is entering the movie field just the same. It is stated that the is to act as general counsel for the "Big Five," collectively known by the euphonious tifle of the United Artists Distributing Association and dealing in the cinematographic masterpiece of Mary Pickford, Charlie Chaplin, Douglas Fairbanks, David Griffith and William S. Hart His salary is unofficially estimated at \$100,000 a year.

It was generally supposed that Mr. McAdoo would take the manage ment of some great bank or manufacturing corporation. After the responsibility that he carried during the war, it might seem that no private job in the country would be too big for him. It is not necessary to revise any such expectation, but rather to revise many people's estimate of the mov ing picture business. Formerly a mere toy, it is now a business giant, able to command the services of the highest priced men in the country.

Turks are asking to be put under the protection of the United States We are also asked to take charge of the Bosphorus and the Dardanelles which no doubt will be internationalized by the peace conference. American public opinion is opposed to interference in the government of other countries, especially outside the American continent. To meet this objection diplomats hint that our participation in the world war has placed us under a moral obligation to assist in the management of certain territory. However, most Americans will prefer our time-tried plan of dodging European Home-made pure pork sausage, no cereals...........23c entanglements and resting our future on a strict adherence to the Monroe Hog liver States, but of the whole western hemisphere.

Testifying before the house interstate commerce commission, Edward C. Lasater, member of the executive committee of the National Livestock association and formerly connected with the food administration meat division, said: "During the last eighteen months the food administration has served as a screen behind which the packers have operated illegally against the public interests." Mr. Lasater says that, realizing the practices and policies of the department were harmful to the common welfare, he resigned from the office in the meat division. This is a very serious charge. and one which the committee no doubt will investigate thoroughly.

General Pershing once said that the American uniform must be the smartest uniform that can be designed because the better a man is dressed the better fighter he makes.

The men coming back from France and from camps in this country are demand-

ing stylish civilian clothes; the uniform has given them a smart, erect carriage; they demand that their new civilian clothes do the same thing. It will make them better fighters in business. The men at home in business want style to celebrate victory; everybody feels like dressing up and is doing it.

SOLDIERS' LETTERS

FROM WILLIAM UNTZ.

The following letter has been re ceived by George Untz of West Brook lyn from his brother, William, who is a member of Co. E, 113th U. S. infantry, on duty with the A. E. F .: I will write you a few lines and tell

you how things went when I went up in St. Mihiel drive with the 78th division. I went to the front on Sept 12th and I got there on October 20 The 78th division went 51 miles in 47 hours. We were reprieved by the letter from their son, Elmer, who is 42nd division on Nov. 6th.

I tell you it was some feeling that crept over us for the first time we were under fire. The first orders we got were to keep under cover so that hostile airmen could not observe us We were also obliged to wear gas masks all the time not because there was so much danger of gas attack in that vicinity, but more to accus tom the men to them. Our battalion was in reserve, the other two battalions of the 311th being in the line Often we could hear the big guns booming. It was the first time we had heard them.

One burst directly in front of the door of my billet and then we ducked, I tell We made a bee line for the platoon dugout. I cannot help laughing now when I think of the consternation that reigned. You see it was an entirely new experience and we thought hell had broken loose sure A lot of the boys even put on their gas masks, they were going to be ready for the worst. As a matter of fact Heinie was simply registering on the place, probably because his observers had noted unwonted move ments there and the shelling stopped in a few minutes.

Well we did some camouflage work and dug some artillery emplacements and reserve trenches and passed ten days there in all. All the time we had to be careful about smoke from our kitchens lest the Boches should see it and turn loose but nothing happened. Nervousness and Headaches Caused

most people imagine. It is because of this close connection that indigestion, the stomach cool, pure, sweet and belching, sour, gassy stomach and other stomach miseries-all of which are sure signs of acid stomach-are so often followed by severe attacks of blinding, splitting headaches.

Nervousness, sleeplessness, irritability, mental depression, melancholia and many other disorders which affect the brain can also nearly always be traced to the same source-acid-stomach.

So often you hear people say "I am so nervous I think I'll fly to pieces; or "It seems I never get a good night's sleep any more, my nerves are all on Little do they dream that acid stomach is the direct cause of their troubles because very often there are no pains in the stomach at all. So you see, you can't always judge an acid-stomach condition by the way your stomach, itself, feels.

If you are weak, nervous, unfit-if you are not up to your old time form -if you lack your accustomed enthusiasm, energy and pep—make this test and see if it isn't acid-stomach that is holding you back - robbing you of your health, strength and vigor. Get a big box of EATONIC-the wonderful modern medicine that so quickly puts an acid stomach to rights. It is in the form of pleasant tasting tablets that you eat like a bit of candy. EATONIC rids the stomach of excess

gestion, heartburn, sour belching, food repeating, bloat and gas and makes comfortable. Dentists warn us against the bad

effects of acid mouth, pointing out that the acid eats through the enamel of the teeth, causing them to decay. You can easily imagine then the amount of damage excess acid will cause to the delicate organization of the stomach!

Thousands of people are using EATONIC and the results obtained are so remarkable as to be almost unbelievable. Yet their letters of gratitude, many of which are received daily, prove absolutely that EATONIC does all and even more than we claim. The medical profession, too, recognizes the great value of this wonderful remedy. A learned Michigan doctor wrote recently: "I have had such wonderful success with EATONIC that I want every one to know how quickly it will neutralize the acidity of the the stomach (acid-stomach) and the stomach will soon be sweet and normal again, and the sick man well and happy once more."

So be sure to get a big box of EATONIC from your druggist today. If it fails in any way to give you the kind of satisfaction you want, take it back-he will refund your money. He doesn't want one penny of your money unless EATONIC helps you.
